

## Environmental Informatics Prize 2017 for Students

In 2017, the Technical Committee Informatics for Environmental Protection (<http://www.enviroinfo.eu/>) of the German Informatics Society will again award the “Environmental Informatics Prize”. This prize has been awarded annually since 2003.

### Aims and Scope

The prize is awarded for students’ works in the field of environmental informatics. Such work takes the form of projects undertaken either as part of a course or for a degree (excluding PhD) at an academic university or a university of applied sciences.

The projects must demonstrate the contribution of methods and technologies of informatics to the solution of environmental problems or dissemination of information supporting sustainable development in general.

### Eligible Students

Students of all subjects from all countries are eligible to participate either as individuals or groups (project teams).

### Criteria

Submissions will be most successful if they clearly demonstrate the **transfer of informatics know-how to practical application**, resulting in a real decrease in stress on the environment or contributing to **environmental consciousness** or to **sustainable development** in general.

### Prize Sum

The prize sum of 1.500 € is usually divided among three candidate projects as follows:

1st prize: € 700

2nd prize: € 500

3rd prize: € 300

The winners are invited and agree in advance to give a short talk on the awarded project at the EnviroInfo 2017 Conference in Luxembourg. Travel costs and accommodation will be covered up to € 250 per winner team.

### Jury

The jury consists of the heads of the International Technical Committee “Informatics for Environmental Protection, Sustainable Development and Risk Management” of the German Informatics Society (GI, <http://www.gi.de>).

### Sponsors

Sponsors of the year 2017 are ifu Hamburg GmbH, Hamburg, Germany ([www.ifu.com](http://www.ifu.com)) and iPoint-systems GmbH, Reutlingen, Germany ([www.ipoint-systems.com](http://www.ipoint-systems.com)).

### Submission

Please submit descriptions of your completed project **not exceeding five pages**, and including an abstract of a half page. A link to supporting information (such as a Master’s Thesis) should be provided. The jury may request further information on projects that get short-listed.

Contributions must be submitted to Prof. Volker Wohlgemuth, Speaker of the Technical Committee Informatics for Environmental Protection of the German Informatics Society only via email to the following address: [eiprize@enviroinfo.eu](mailto:eiprize@enviroinfo.eu)

**Deadline** for submission: July 3<sup>rd</sup> 2017.

**EnviroInfo 2017, hosted by LIST, Luxembourg Institute of Science and Technology:**
